Bacon is a specialist thing!

High-quality meat products from the best raw materials – that is the standard of Henri van de Bilt since 1959. Our meat products made from whole pieces of meat develop their excellent taste during our three-stage method of curing, smoking over beech wood and ripening in drying areas. Our extensive assortment ranges from cooked and raw cured specialties, baked or slow cooked products to grilled vegetables.

Tapas Skewers

Raw pork belly, cut in one piece, salted, seasoned, dried, and traditionally smoked over beech wood. Sliced, rolled by hand around dried fruit, and three tapas each are skewered on a bamboo skewer.

A delicious bacon snack, available in two fruity varieties made from a single cut of meat.
