

Tapas - aromatic fruits wrapped in bacon

**Delicious
Finger
Food!**

- Fruits wrapped in a smoked slice of bacon
- Traditionally smoked over beech wood
- Ready rolled for quick and easy handling
- Also a pleasure when cold after preparation
- Packaged by variety

Our tapas convince in the date and prun varieties. Wrapped in a savory bacon coating, all you have to do is prepare them in an airfryer, a pan, oven, or microwave, and they always look great in a cozy atmosphere or on a buffet.

Shelf life 35 days

We are happy to assist you on this and other products from our range.

Bacon is a specialist thing!

High-quality meat products from the best raw materials – that is the standard of Henri van de Bilt since 1959. Our meat products made from whole pieces of meat develop their excellent taste during our three-stage method of curing, smoking over beech wood and ripening in drying areas. Our extensive assortment ranges from cooked and raw cured specialties, baked or slow cooked products to grilled vegetables.
