

# Tapas

**Delicious  
Finger  
Food!**

- Fruits wrapped in a slice of bacon, traditionally smoked over beech wood
- Ready rolled for quick and easy handling
- good service life, also a pleasure when cold after preparation
- Packaged by variety

Also available as  
Tapas Skewers

Our tapas convince in the date and prun varieties. Wrapped in a savory bacon coating, all you have to do is prepare them in an airfryer, a pan, an oven or a microwave, and they always look great in a cozy atmosphere or on a buffet.

### Bacon is a specialist thing!

High-quality meat products from the best raw materials – that is the standard of Henri van de Bilt since 1959. Our meat products made from whole pieces of meat develop their excellent taste during our three-stage method of curing, smoking over beech wood and ripening in drying areas. Our extensive assortment ranges from cooked and raw cured specialties, baked or slow cooked products to grilled vegetables.
